About JShine solar

Jshine solar is a leading EPC company and a module producer which was founded in 2014 in china, It is a solar solution provider for residential, ground mounted power plant in china market, including modules, inverter, distribution box, mounting system, etc.

Jshines solar production lines in Huzhou, China

About JShine solar

- Jshine solar has installed more than 1000 household rooftops and many demonstrative utility large scales projects in china. with more than 300MW of panels installed across many parts of china.

Due to business development and company restructuring, Jshine Solar Hong Kong Limited was established in 2021 as global headquarter, we are committed to provide you the top quality modules, the expertised PV solution and excellent customer service.

— Global Distribution

Our overseas sales team aims at global market, we already supplied our modules to many countries in Europe, Including Finland, Estonia, Denmark, Germany, Poland, Czech, Croatia, Austria and Italy.

Our domestic team aims at china market, we are committed to provide one-stop solutions for residential and ground mounted project

Our Mission

- **Mission:** Optimize the benefits of solar energy and contribute to the advancement of solar industry and low-carbon economy.
- **Vision :** To become your reliable & high performance PV modules supplier and one-stop solar solution provider.
- **Company Values:** We operate with the spirit of trust and constant improvement. They serve to guide us in how we do business and it's the only way to make us stronger and really contributes to the green future and fulfill our dreams.

JSOLAR Advantages

We are your one-stop solar solution provider.

We have Rich experience for domestic roof-top and ground projects from development, structuring, EPC, operation and maintenance.

We operate with the spirit of trust and constant improvement.

We provide reliable and high performance PV modules with fast delivery and low cost.

Excellent customer service-adapt our services to the needs of each client.

Our principles

Our principles represent how we operate, how we make decisions, how we measure what we do and what we have to do for a better future.

Be open-minded:

Embrace changes and be creative, Our innovation takes place in every aspect of our business including how we provide the best service, how we create a business model with maximized mutual benefits.

Customer-oriented:

Put yourself on customer's place to give consideration on her varied wishes, demand, interest and difficulties. You will learn more about your partner.

Keep challenging:

We keep challenging ourselves and perfect who we are, always find better solutions of doing things and seek better results which inspired us to become who we are today and ready for any challenge and holding us up to a higher standard.

Be competitive.

Being competitive is the only way we can win our clients and also get business expansion in the future. Will force us to be excellent in operation and get improvement on our products and services, **being competitive** will make us provide better customer experiences by achieving results early through prompt decision-making and implementation.

03 REFERENCE PROJECTS

04 SUSTAINABLE DEVELOPMENT

Products Portfolio

M6 MONO HALF-CUT MODULE

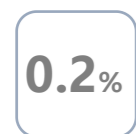

•Half-Cut technique leads to increased power output

•Series-parallel wiring mode results in reduced shading loss

•Excellent temperature performance

•Reduced encapsulation loss due to reduced current

•1500V high system voltage design

■ JS 370~390W-120M6
1755×1038×30mm

■ JS 445~465W-144M6
2094×1038×35mm

Products Portfolio

HALF-CUT BIFACIAL DOUBLE GLASS MODULE

•Elegant appearance & high performance

30%

•30 - year power warranty

1500

•1500V system voltage design

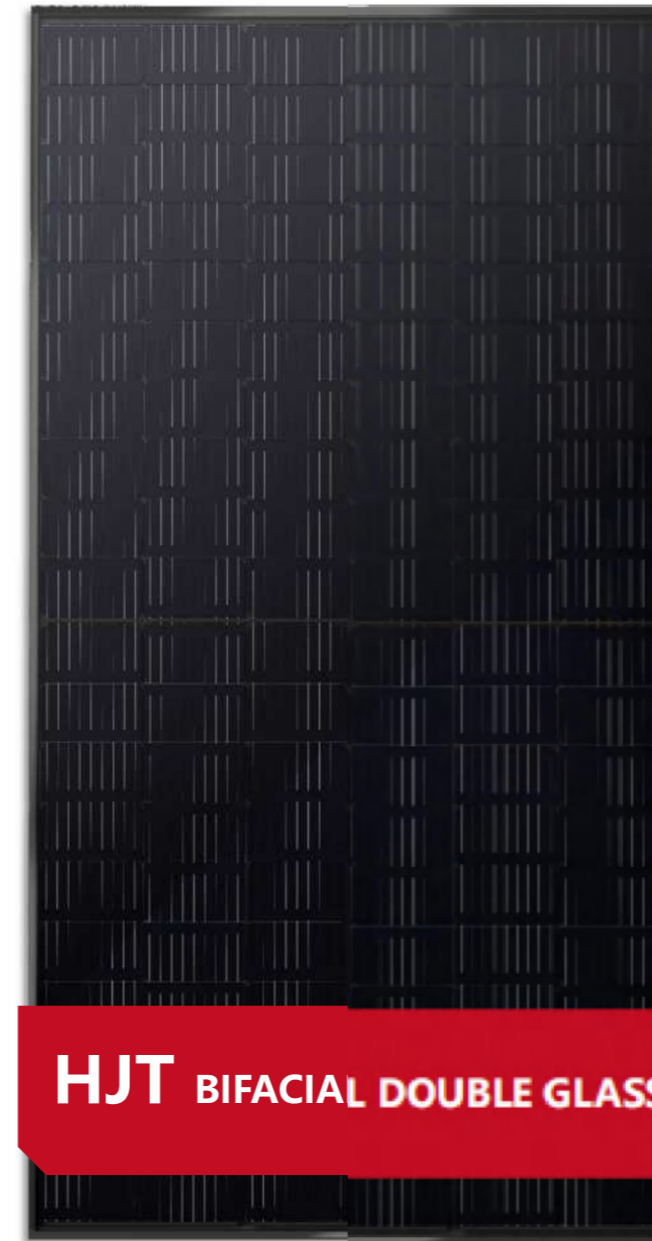

•Fire class A, harsh environment adaptability

•Lower LCOE

■ JS 380~400W-120M6 HJT DG
1755×1038×30mm

■ JS 390~410W-108M10 DG
1722×1134×30mm

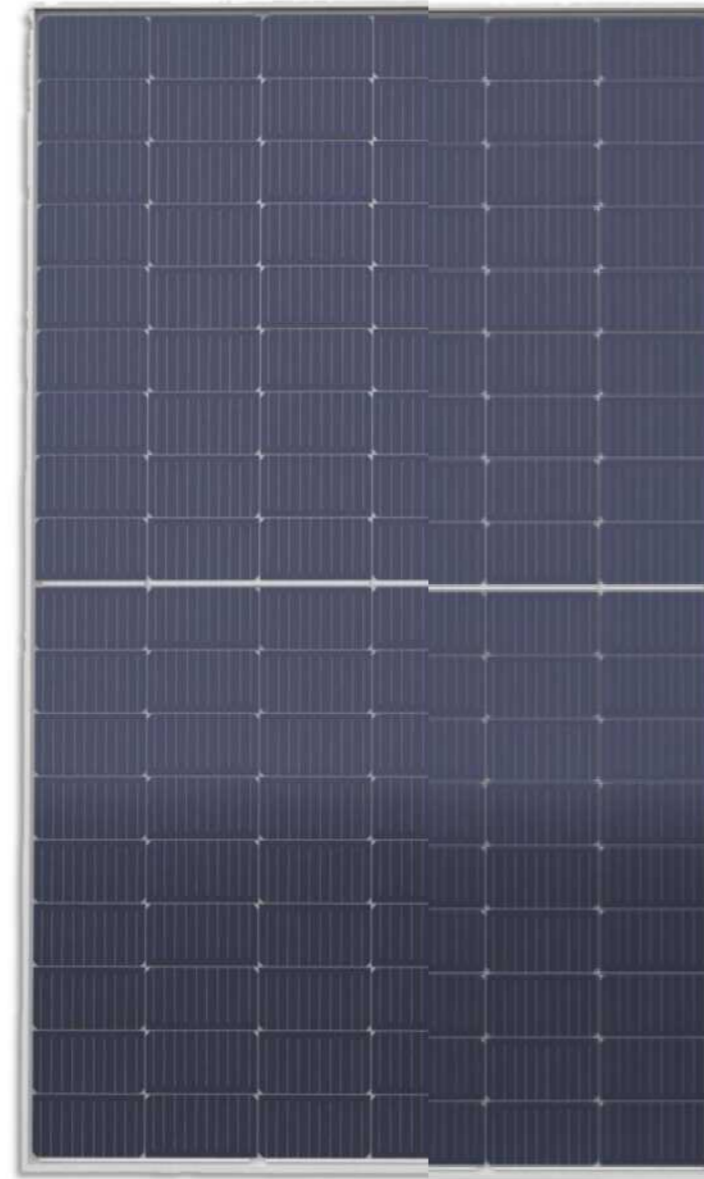

Products Portfolio

M10 MONO HALF-CUT MODULE

- Half-Cut technique leads to increased power output
- Series-parallel wiring mode results in reduced shading loss
- Excellent temperature performance
- Reduced encapsulation loss due to reduced current
- 1500V high system voltage design

■ JS 395 ~ 415 -108M10
1722×1134×30mm

■ JS 485 ~ 505-132M10
2094×1134×35mm

■ JS 540 ~ 560-144M10
2278×1134×35mm

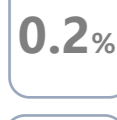

Products Portfolio

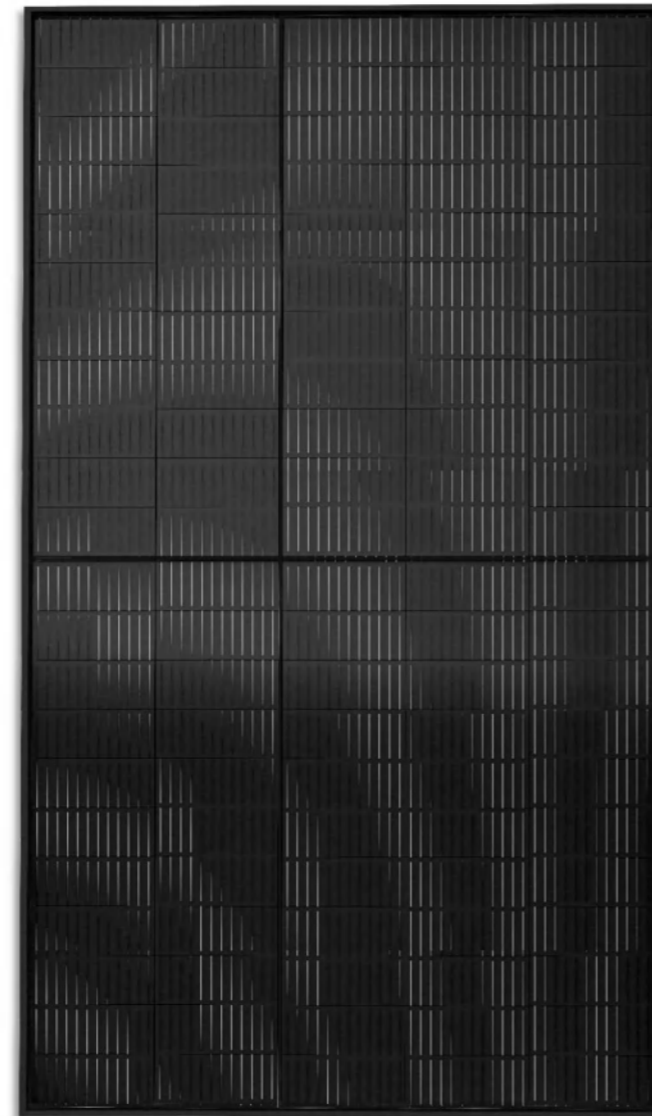

■ JS 395 ~ 415 120M12 1/3 cut BB
1754×1096×30mm

■ JS 535~555-110M12
2384×1096×35mm

■ JS 645~670-132M12
2384×1303×35mm

M12 MONO HALF-CUT MODULE

- 
 •Half-Cut technique leads to increased power output
- 
 •Series-parallel wiring mode results in reduced shading loss
- 
 •Excellent temperature performance
- 
 •Reduced encapsulation loss due to reduced current
- 
 •1500V high system voltage design

— Insurance & Warranty

Quality Control

- Automatic production line
- 3A+ rated G-solar equipment
- MES online quality control system
- ERP warehouse management

3rd Party Reliability Test

- Reliability benchmarking tests in the 3rd party (Test labs & institutes)

Material Control

- Stringent supplier management
- IQA Incoming material quality assurance

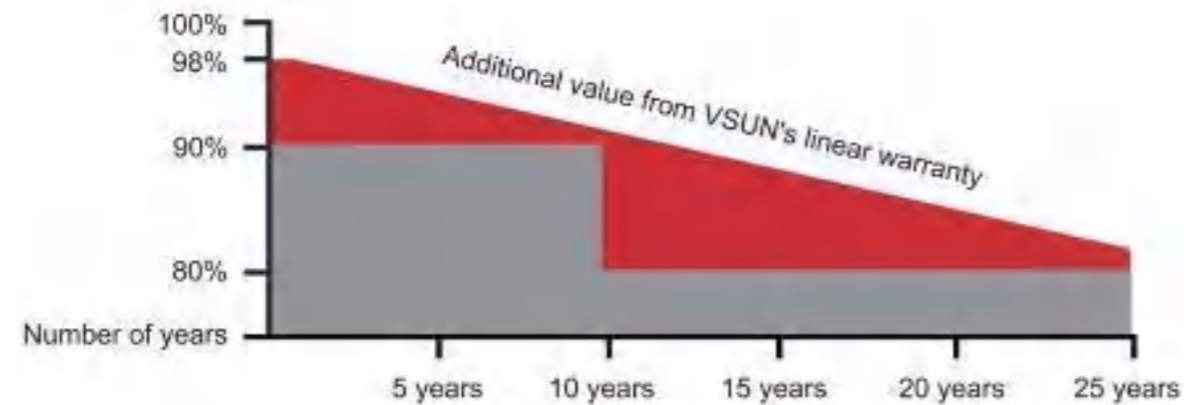

Certifications

- Comprehensive certifications
- Standard QHSE management system

— Insurance & Warranty

Warranty

Product Warranty

12-year of product warranty (could be extended to **25-year** depends on customer demand)

Performance Warranty

25-year linear power output warranty for monofacial modules **30-year** linear power output warranty for Bi-bacifal modules

Reliability

- IEC 61215 / IEC 61730
- Quality ISO9001
 - Environment ISO14001
 - Occupational safety and health OHSAS45001

Comprehensive Certifications

— JShine Quality Control

- Monitor production
- Promote quality management
- ...

- Reliability control
- Standardization and unification
- System constructionSolar Power Generation
- Cross-regional auditing
- Quality and performance management
- ...

Supplier Quality Management

Global Customer Service

- Annual audit and supervision
- Daily assessment
- Major abnormal improvement
- New Material Introduction and Change Management
- ...

Monitor production

- Serve customers
- Deal with complaints
- Improve customer relationship
- Investigate customer satisfaction
- Giving feedback against customers' problems
- Drive internal improvement
- ...

Quality Risk Management
